8. Internationaler 3D Stereo Wettbewerb Wien 2019

It was a great pleasure to see the participants of the 8th international stereo image contest came from 9 countries; besides Austrian participants, there were also images from Germany, Great Britain, Italy, Japan, Poland, Spain, Sweden and USA.

The competent jury voted for each image 1 to 5 points for photo techniques, stereoscopy and creative composition. 15 points max could be given to each image.

The first 3 winners are awarded with the 3D Stereo glass medal:

Antwerpen Station by German photographer Sebastian Cramer thrilled the jury most and received the highest scores.

Just one point less followed by the impressive Under the Fire work by Spanish fire experts Esther Aguilera Suarez Churrasqueros.

The third award went to Takashi Sekitani, Japan for his extraordinary Flower Shapes.

George Themelis, USA is the overall winner and honoured with the gold medal of IIFW.

The Prize of the Naturfreunde for the extraordinary photo of nature is awarded to Takashi Sekitani.

This time the jury also awarded a Humor-Prize to Günter Pomaska for his cute Gummybears.

All authors with one or more accepted images get awarded with a certificate. All participants get their results and a 3D-TV-file with the winner stereo images.
