Advanced Solutions for Optical Measurements

June Laser Sale up to 40% Off !!

Don't Miss Out on These Exceptional Savings!

Discounted Pricing on NEW HIGH POWER STABILIZED LASERS

250mW@404nm 325mW@445nm 375mW@520nm 280mW@638nm

HeNe Replacement: up to 70mW Single Frequency @633nm

High Power Single Frequency 785nm up to 225mW!

Sale prices effective through June 30, 2017

Get the New Product Selector Guide!

Our updated Wavelength Stabilized Lasers and Accessories Selector Guide covers the complete range of Ondax SureLock™ Series lasers. Every laser incorporates the Ondax PowerLocker® Volume Holographic Grating (VHG) to deliver steady, single frequency or narrowed linewidth performance. Combining stabilized operating characteristics, low power consumption, and compact footprints, SureLock™ lasers provide affordable, instrument quality performance in a variety of wavelengths and form factors to match virtually any application.

NEW! High-power Single Frequency and Spectrum Narrowed Lasers

Our NEW High-power Compact Laser Modules set new standards for ultra-stable performance! Check out our new high-power,

Model LM785-PLR-225

spectrum-narrowed lasers: **250mW@404nm**, **325mW@445**, **375mW@520nm**, **280mW@638** our our industry-leading **225mW of single-frequency power @ 785nm** - opening new applications in Raman and analytical instrumentation. Available in free-space and fiber-coupled configurations.

Shop now: 10% to 20% off!

Model RO- USB-633-PLR-70

Replace your HeNe! 633nm 30mW-70mW Single Frequency Lasers

Try this new, ultra-compact, 40mW or 70mW Round Laser Module as a HeNe replacement in your system! Ultra-compact size (only 25mm dia. x 75mm), stabilized single-frequency operation, low power consumption, and incredible power output!

10% off on 633nm, 20% to 33% off on other wavelengths!

Model CP Collimated TO Can

NEW! High-power Collimated TO Cans - up to 500mW

Try our new, high-power collimated TO cans! With a narrowed linewidth (less than 0.06nm), extended stabilized temperature range, and incredible power output, these lasers will enhance the performance of your optical instrument.

Buy now - up to 25% off
